

ELKOSO[®]

AUTOMOTIVE MANUFACTURING SOLUTIONS

Our mission is to deliver quality products that provide effective solutions to problems in injection systems, accompanied by ongoing training and support.

ELKOSO BRAND

Automotive Manufacturing Solutions

Company provides outstanding service through teamwork, accountability and innovation, aspects that we are proud they are reflecting.

Your trusted global partner.

In our presentation, we emphasize ELKOSO® as a renowned EU manufacturer, specializing in diesel and hybrid engine components crucial for the remanufacturing process.

With a distinguished reputation, ELKOSO® has established a network of distributed remanufacturing sources, facilitated by official local dealers, strategically positioned to serve clients effectively.

Recognized as a trusted leader in the European remanufacturing industry, ELKOSO® sets the standard for excellence and reliability.

WELCOME TO

ELKOSO[®]

Our Goal:

Our mission is to deliver quality products that provide effective solutions to problems in injection systems, accompanied by ongoing training and support.

Commitment to Excellence:

Count on our expertise as we strive to provide you with superior parts designed to meet the highest standards of excellence. With Elkoso, you get innovation, reliability, and a partner committed to your success.

Core Values:

- **Innovation:** We leverage cutting-edge technology and innovative design to stay ahead in the market.
- **Quality:** Our products are renowned for their exceptional quality, ensuring reliability and optimum performance.
- **Customer Satisfaction:** We are dedicated to exceeding customer expectations through superior parts and excellent service.

Our Capabilities:

- **State-of-the-art production facility:** Equipped with the latest technology for precision manufacturing.
- **Fully Equipped Workshop:** Ensuring rigorous testing and quality control of our products.
- **Comprehensive Product Range:** From diesel fuel injection systems to hand tools, we provide complete solutions.

LOCAL STOCKIST CATEGORIES

In our presentation, we delineate the strategic advantages of being a local stockist, highlighting the opportunity to cater to distinct market segments effectively. As such, we propose the following categories for consideration, tailored to suit the dynamics of your local market:

- 1. Diesel Spare Parts Produced by ELKOSO®:** As a stockist, you would have access to a comprehensive range of high-quality diesel spare parts manufactured by ELKOSO®. This includes a diverse array of components essential for diesel engine maintenance and repair, ensuring that you can fulfill the demands of your clientele with precision and reliability.
- 2. Hybrid Cells Produced by ELKOSO®:** In response to the growing demand for hybrid vehicles, we offer cutting-edge hybrid cells produced by ELKOSO®. These advanced components are designed to optimize performance and efficiency in hybrid vehicles, presenting an opportunity to capitalize on the burgeoning hybrid market segment.
- 3. New Diesel Injectors Produced by ELKOSO®:** Our portfolio encompasses state-of-the-art new diesel injectors engineered by ELKOSO®. These injectors boast superior performance, durability, and compatibility, meeting the exacting standards of modern diesel engines. By stocking these injectors, you can cater to the needs of customers seeking reliable and innovative diesel fuel delivery solutions.
- 4. Remanufactured Injectors and Pumps (Only for EU Countries):** For markets within the EU, we offer remanufactured injectors and pumps meticulously refurbished to OEM specifications. These remanufactured components provide a cost-effective alternative without compromising on quality, making them an attractive option for budget-conscious customers seeking reliable diesel engine solutions.
- 5. Diesel Testbenches (Tecnomotor & Percotronics):** Enhance your service capabilities with our range of diesel testbenches sourced from reputable manufacturers such as Tecnomotor and Percotronics. These sophisticated diagnostic tools empower you to conduct comprehensive testing and analysis of diesel systems, facilitating accurate diagnosis and efficient troubleshooting for your customers.

ELKOSO PRODUCTS

DIESEL SPARE PARTS

At ELKOSO®, we pride ourselves on being at the forefront of fuel injection parts manufacturing, delivering excellence from single components to complete systems. With precision and expertise, we offer an extensive array of spare parts for diesel fuel injection systems and fuel pumps.

Our commitment to total quality permeates every facet of our manufacturing process, ensuring that each product meets the most exacting standards. As a testament to our dedication, we provide a comprehensive 12-month warranty on all our offerings, instilling confidence in the reliability and durability of our products.

Central to our ethos is the unwavering pursuit of customer satisfaction. With this in mind, we endeavor to maintain ample stock levels, guaranteeing immediate availability of our products when you need them most. Our unwavering commitment to delivering the highest quality products promptly underscores ELKOSO®'s mission to set the benchmark for excellence in the industry.

ELKOSO PRODUCTS

NEW & REMAN COMPLETE UNITS

Building upon years of profound experience in the market, ELKOSO® has pioneered the production of comprehensive NEW Injectors, a testament to our relentless pursuit of innovation and excellence. Through the dedication and ingenuity of our Research and Development department, we have unlocked new horizons in fuel injection technology, offering complete solutions that meet and exceed industry standards.

Our NEW Injectors represent the pinnacle of performance and reliability, meticulously crafted to deliver unparalleled efficiency and durability. Backed by our unwavering commitment to quality, all of our NEW products come standard with an extensive 1-year warranty, providing our valued customers with peace of mind and assurance of our steadfast support.

In addition to our NEW product line, we extend a special offering exclusively tailored for the discerning European market. Through our esteemed network of local dealers, we proudly present Remanufactured pumps and injectors, meticulously refurbished to exacting OEM specifications. Upholding our uncompromising standards of quality, these Remanufactured components are accompanied by a comprehensive 1-year warranty, ensuring optimal performance and longevity.

At ELKOSO®, we remain steadfast in our mission to deliver excellence at every turn. With our diverse portfolio of cutting-edge solutions and unwavering commitment to customer satisfaction, we stand ready to elevate your expectations and redefine industry standards.

NEW & REMAN COMPLETE UNITS

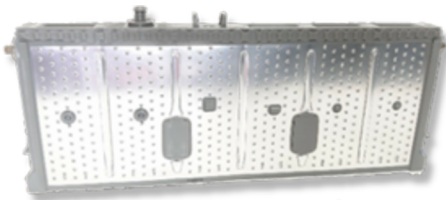

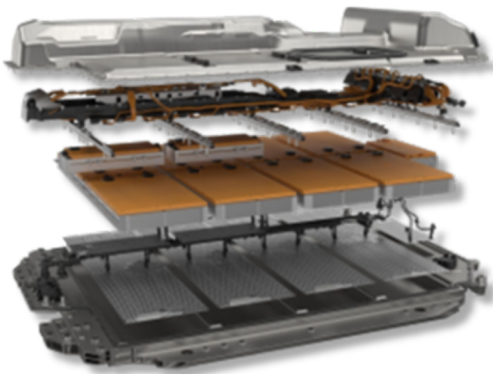

ELKOSO PRODUCTS HYBRID CELLS

In response to the dynamic landscape shaped by the rapid expansion of Electric Vehicle (EV) and Hybrid Electric Vehicle (HEV) technologies worldwide, ELKOSO® has embarked on a strategic initiative to diversify our offerings. Recognizing the pivotal role of battery technology in driving this transformation, we are proud to announce the commencement of battery cell production under the ELKOSO® banner.

Through strategic collaboration with leading companies within the battery industry, we have leveraged our expertise and resources to develop cutting-edge equipment tailored specifically for testing and repairing battery packs. Our commitment to innovation and reliability ensures that our battery cells meet the stringent performance standards demanded by the burgeoning EV and HEV markets.

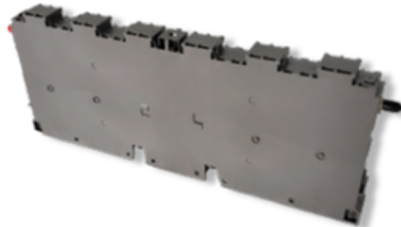

We extend our sincere gratitude for your continued support and trust in ELKOSO®. Together, let us pave the way for a sustainable and electrified future.

SUPPLY CHAIN

Automotive Manufacturing Solutions

ELKOSO® strategically operates through two dedicated R&D and manufacturing sites: one in Ulsan, South Korea (PRC), for R&D and QC, and another in Thessaloniki, Greece (under the legal name Diesel Lab IKE), for training, final inspection, and showroom. Both sites are fully integrated into the Group's operations.

In addition, ELKOSO® operates a European Distribution Center (EDC) located in Greece, serving a pivotal role in the distribution chain. The EDC manages order fulfillment and stores produced goods prior to their shipment to distributors, repair centers, and auto part dealers across 34 countries.

Operating Strategy

HOW IT WORKS

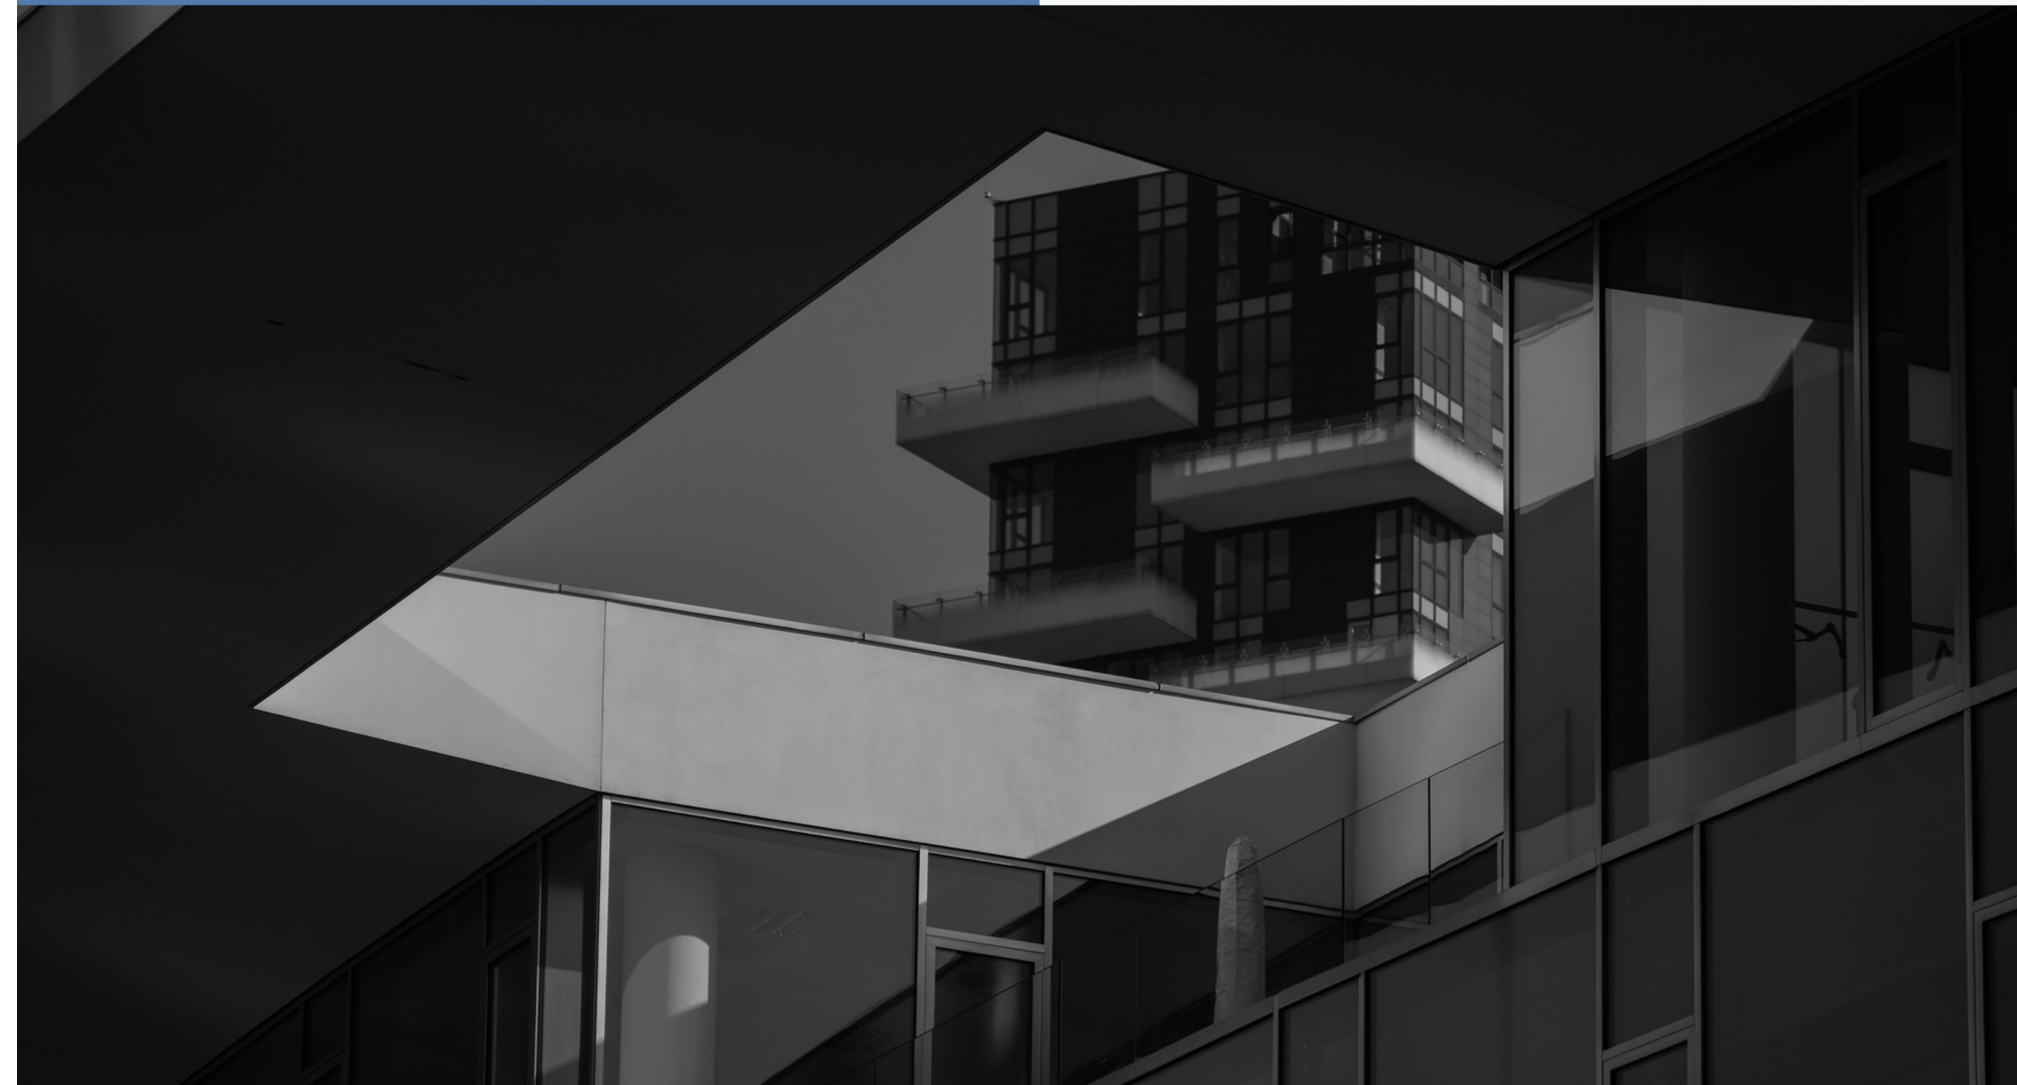

B2B clients discover ELKOSO® through Google searches, marketplaces, and place orders via our localized website: www.elkoso.xx

ELKOSO® headquarters processes incoming orders.

ELKOSO® assigns orders to the nearest official stockist based on proximity.
